5 JAN 1977

ORGANIZATION AND MANAGEMENT
OF THE INTELLIGENCE COMMUNITY

WHAT ARE THE OBJECTIVES:

- o To significantly expand the DCI's authority?
- o To clarify and sharpen the present authority of the DCI?
- o To clearly separate the DCI's Community responsibilities from his Agency responsibilities?
- o To centralize management of the Community for greater efficiency? (Funding and manpower utilization.)

SPECIFIC ACTIONS:

- o Should the Executive Order 11905 be revised, and if so, what revisions are necessary?
- o Should the DCI be given direct management responsibilities for NSA?
- o Does the satellite reconnaissance mechanism - the NRO and NPIC - need to be reorganized with the functions consolidated into a single organization?
- o Does the DCI's Community Staff - NIOs, ICS, the Committees, GC, LC, and IG - need to be consolidated into a truly "Community" mechanism separate from the CIA?
- o Is the present ^{ICS} organization the most effective way to meet its responsibilities for long range planning, development of requirements and programs to satisfy those requirements and evaluating the product of intelligence?
